Enrolment Policy

Policy	It is the policy of the College to use enrolment criteria to identify students from the register of applications for possible enrolment at the College.
Purpose	William Clarke College keeps a register of enrolments of all students at the College in its database – Synergetic. This is kept in accordance with the NESA requirements.
Relevant Compliance Legislation or Document	Education Act 1990 (NSW) Disability Discrimination Act 1992 (Cth) Disability Standards for Education 2005 (Cth) Health Records and Information Privacy Act 2022 (NSW) Privacy Act 1988 (Cth) Public Health Act 2010 (NSW) The William Clarke College Prospectus

Enrolment Policy

Once an Application Form has been submitted including all above requirements, it will be processed, and an email will be issued acknowledging the application. All applications are placed on a Registered Student Applications list.

Parents' declaration

In completing the application form we will ask the parents/carers to declare that to the best of their knowledge they have:

- Disclosed any special needs of their child.
- Provided a copy of any Parenting or Restraint Order that applies to the prospective student and parents/carers.
- Fully completed the application form.

If parents/carers withhold information relevant to the registration and enrolment process then the College reserves the right to refuse, or terminate the enrolment process on these grounds.

Recording of Immunisation Status

- Evidence of a child's immunisation status is to be received at enrolment (children can still be enrolled if parents/carers do not provide this information but they will be recorded as unimmunised and may be excluded during a disease outbreak).
- A record of each student's immunisation status is maintained.
- If a student transfers to another school, we provide a copy of the student's immunisation form to the parent/carer or school upon request.
- The College must notify the public health unit if an enrolled student has a vaccine preventable disease, or if the College reasonably believes that an unimmunised enrolled student has come into contact with someone who has a vaccine preventable disease.

The College must exclude students at risk of contracting a disease from attending the College on the direction of a public health officer (public health officers will have the authority to direct an unimmunised student whom the officer reasonably believes has been in contact with a case of a vaccine preventable disease to be excluded from the College, regardless of whether there is an outbreak at the College).

If a casual vacancy occurs, all students on the waiting list are considered. This typically involves a member of the Diverse Learning team and/or a senior leadership role. The collaborative planning process can include:</p> <ul style="list-style-type: none">• Consultation to understand the student's specific needs and requirements at school with the family, health professionals and educators and how the College environment might support those needs (regarding physical access, health issues, personal care needs, communication needs, curriculum access, specialist agencies and emergency procedures).• Collaboration with the above stakeholders on potential solutions and identification of reasonable adjustments that are necessary to meet the student's needs, including the effect of the proposed adjustment on the prospective student, staff members and other students. .• Visiting the child's current educational setting for observation and to discuss their needs with their educators.• Requesting the family acquire updates to existing documentation.• Undertaking assessment with a College staff member.• Consideration of whether the proposed reasonable adjustment/s might pose an unjustifiable hardship to the College, including the financial expenditure required to implement the proposed adjustment/s. <p>Whilst this collaborative planning process is in operation, a place of enrolment will be held in reserve.
